

KiTi-Bat

REGISTERED TRADEMARK • HAND-EYE SKILLS TRAINER

THE COMPLETE HAND-EYE SKILLS DEVELOPMENT TOOL

From your first hit in the backyard to elite-level cricket — and from the suburbs to the township nets.

PLAYFUL ON THE OUTSIDE. A SCIENTIFIC INSTRUMENT ON THE INSIDE.

It looks like simple backyard fun — but KiTi-Bat is a deliberately engineered training instrument. Every swing is designed to sharpen hand-eye coordination, reflexes and peripheral vision, the real foundations of a batter's game. Quick warm-ups. High repetitions. Real results, repetition after repetition.

One system. Two entry points. A full pathway from a child's very first swing to competition-ready skill.

WHY KiTi-BAT WORKS

- ✓ **Quick warm-up.** Ready to train in minutes — no long setup, no excuses.
- ✓ **High repetitions.** Build muscle memory fast with rapid-fire, focused reps.
- ✓ **Maintains high skill levels.** Keeps experienced players sharp between matches and seasons.
- ✓ **Motivates juniors by example.** Seniors and coaches demonstrate; juniors see it, want it, and chase it.
- ✓ **Trains both hands and full peripheral vision.** Building reflexes elite-level batting depends on.

MORE THAN A BAT. A MOVEMENT.

KiTi-Bat isn't only for polished nets and paid coaches. The KiTi-Junior was built to bring elite-level training within reach of every young cricketer — including the ones in under-resourced schools and township clubs who rarely get access to specialised equipment.

- ✓ **Grassroots-ready.** Simple, durable and built for high-volume, low-cost coaching in schools and community clubs.
- ✓ **Opens doors.** An affordable entry point means more kids get a genuine shot at developing real skill — not just the ones who can afford it.
- ✓ **Built for partnership.** We're looking for schools, clubs, coaches and sponsors ready to bring KiTi-Bat to their community.

TRAIN BETTER. BAT BETTER. UPLIFT TOGETHER.
